STAD TÁILLÍ UISCE

STOP WATER CHARGES

TACAIGH LEIS AN BHFEACHTAS CHUN DEIREADH A CHUR LE TÁILLÍ UISCE

Sinn Féin is opposed to the introduction of water charges and will campaign side by side with communities to abolish them. Water is a right for all our citizens and is paid for already through general taxation. With your support these charges can be defeated.

If they are not defeated by people power on the streets, Sinn Féin have given a clear commitment to reverse them.

Sinn Féin is also pressing for the right to water to be enshrined in the constitution, including a provision to prevent any future privatisation of water services in this state.

WHAT YOU CAN DO:

- » Get involved with your local Right2Water campaign group
- » Join protests and marches taking place nationally and locally
- » Let your local Fine Gael and Labour TDs know how you feel about this issue.

Tá Sinn Féin in éadan táillí uisce a thabhairt isteach agus déanfaidh sé a sheacht ndícheall dul i mbun feachtasaíochta taobh le taobh leis na pobail chun deireadh a chur leo. Is ceart dár saoránaigh ar fad é uisce agus íocann siad as tríd an gcánachas ginearálta. Le do chuid tacaíochta is féidir linn na táillí seo a chloí.

Mura gcloíonn cumhacht an phobail ar na sráideanna iad tá tiomantas soiléir tugtha ag Sinn Féin iad a fhreaschur má bhíonn sé sa Rialtas.

Tá Sinn Féin freisin ag brú na gcearta chun go mbeidh uisce cosanta sa bhunreacht agus soláthar ann chun cosc a chur ar phríobháidíú seirbhísí uisce sa toadhchái sa stát seo.

CAD É IS FÉIDIR LEAT A DHÉANAMH:

- » Glac páirt leis an ngrúpa áitiúil feachtasaíochta Right2Water

OUT OF TOUCH GOVERNMENT REWARDS THE WEALTHY

SINN FÉIN OFFERS A FAIR ALTERNATIVE

Budget 2015 provided an opportunity for real change. Sinn Féin put forward a plan for the abolition of water charges and the property tax, and a fair deal for those on low and middle incomes. This budget was an opportunity for the government to show that they had listened to the people who have suffered under the burden of austerity since the economic collapse. It was an opportunity to show that they are listening to the people who are taking to the streets in their thousands to oppose water charges and who sent a clear message that they wanted change in the Local and European elections. What this out of touch government delivered was a budget that rewards the wealthiest and fails the fairness test.

RESTORE THE RESPITE CARE GRANT

Sinn Féin supports the restoration of the Respite Care Grant - it was included in Sinn Féin's alternative budget. Budget 2015 should have been the budget that eased the financial strain on family carers.

Carers are among the hardest-working groups in society. The work they do is invaluable to their families and communities and their work saves the state millions of euro year in year out.

The government had many options in terms of trying to reverse some of the worst impacts of successive austerity budgets. Restoring the Respite Care Grant should have been a priority. It is not too late. In the overall scheme of things it is not a huge sum of money – just €29.6 million – out of a budget of billions.
